T8 SERIES

Premium
Flagship Desk Phone

The Yealink T8 Series represents the premium SIP desk phones. As one of the industry's most advanced IP phone portfolios, it combines a fashionable design, AI-powered audio, enhanced security, smarter user experience, and a sustainable mindset — delivering truly customer-centric communication and collaboration for businesses of all sizes.

Fashionable Design for Your Smart Workstyle

The all-new fashionable design, featuring invisible hinge, slimmer body, larger color display, emergency button, and antimicrobial materials, fits into your modern style.Enjoy comfortable hand feel when you start to work with it.

Ultra-clear Audio that Sounds Extraordinary

Empowered by AI Noise Cancellation, optimized Acoustic Shield and 3W speaker, T8X delivers upgraded AI-powered audio quality and volume. Enjoy focused communication in an immersive environment without noise.

Security Enhanced at the Core

Yealink T8 Series features Three Rings of Security—Core Ring ensures device integrity by preventing tampering and unauthorized access; Shield Ring protects network connections against intrusions and attacks; and Guard Ring secures transmission by protecting signaling, media, and user data in transit and at rest.

Next-level Connectivity as Your Companion Device

The latest built-in Bluetooth 5.0 and Wi-Fi 6.0 provide more device coordination and flexible network connection. Instantly get on your headset by close-to-pair!The T8X series also support sidecars for speed dial needs.

Smart UX for Seamless and Efficient Work

Redesigned UI makes easy access to more functionalities, like BLF floating, Accessibility Mode, Dark Theme. Enjoy unified interaction and more user-friendly experience!

Call in a Sustainable Future

Adoption of PCR materials (T87W/T88W/T88W Pro/T88V Pro only), green packaging and power-saving mode reduce plastic waste, carbon footprint for sustainability.

VP59 Flagship Desktop Phone

Recommended Users: senior managers, executives with integrated video calling needs

- 8'' capacitive adjustable touch screen, sleek style with intuitive user interface
- 1080p@30 full HD video, with audio 2M pixels camera, larger field of view of 84°, the highest video quality standard for desktop phones
- Optimal HD Voice with Yealink Noise Proof and Acoustic
- Shield Technologies
- Built-in Wi-Fi (Dual-band 2.4G/5G) & Bluetooth
- Supports Power over Ethernet HDMI extension output for monitor connection

T88W Series Elite Desktop Phone

Recommended Users: executives, professionals with integrated video calling needs

- Flexible to choose whether to have the five-megapixel camera for multi-way audio/video mixed conferencing.
- Android 13 OS for better data encryption, authority management, response speed and integratability.
- TEE hardware encryption solution, which can provide you with a more secure data storage Experience.
- 7'' capacitive adjustable touch screen, sleek style with intuitive user interface.
- Optimal HD Voice with Yealink AI Noise Cancellation and Acoustic Shield Technologies.
- Bluetooth handset (optional) that allows users to move around freely and conveniently.
- Built-in Wi-Fi 6 (Dual-band 2.4G/5G) & Bluetooth5.0.
- 2*USB 2.0 port(1*USB-A;1*USB-C) for USB recording and wired/wireless USB headsets
- Supports up to 3 EXP55, 234 additional buttons with LED system
- Support the use of more environmentally friendly PCR materials

T87W Prime Business Phone

Recommended Users:
officers with heavy call load

- Linux 6.1 offers a more secure environment and faster response.
- TEE hardware encryption solution, which can provide you with a more secure data storageexperience
- 7'' capacitive adjustable touch screen, sleek style with intuitive user interface
- Optimal HD Voice with Yealink AI Noise Cancellation and Acoustic Shield Technologies
- Built-in Wi-Fi 6 (Dual-band 2.4G/5G) & Bluetooth 5.0
- 2*USB 2.0 port(1*USB-A;1*USB-C) for USB recording and wired/wireless USB headsets
- Supports up to 3 EXP55, 234 additional buttons with LED system
- Support the use of more environmentally friendly PCR materials

T85W Mid-Level Business Phone

Recommended Users:
officers with moderate call load

- Linux 6.1 offers a more secure environment and faster response.
- TEE hardware encryption solution, which can provide you with a more secure data storage experience.
- 5.5'' capacitive adjustable screen, sleek style with intuitive user interface.
- Optimal HD Voice with Yealink AI Noise Cancellation and Acoustic Shield Technologies
- Built-in Wi-Fi 6(Dual-band 2.4G/5G) & Bluetooth 5.0
- 2*USB 2.0 port(1*USB-A;1*USB-C) for wired/wireless USB headsets
- Supports up to 3 EXP55, 234 additional buttons with LED system

T7 SERIES

Ultra Business Desk Phone

The Yealink T7 Series is SIP phone designed for diverse business environments — from call centers and retail to modern offices. With a fashionable design, ultra-clear audio, enhanced security, flexible connectivity and smart user experience, it delivers reliable performance and a seamless user experience across every workspace.

Fashionable Design for Your Smart Workstyle

The all-new fashionable design, featuring slimmer body, larger color display and touchable buttons, fits into your modern style.Enjoy comfortable hand feel when you start to work with it.

Ultra-clear Audio that Sounds Extraordinary

Empowered by Smart Noise Filtering, optimized Acoustic Shield and 3W speaker, T7X delivers upgraded ultra-clear audio quality and volume. Enjoy focused communication in an immersive environment without noise.

Security Enhanced at the Core

Yealink T7 Series features Three Rings of Security—Core Ring ensures device integrity by preventing tampering and unauthorized access; Shield Ring protects network connections against intrusions and attacks; and Guard Ring secures transmission by protecting signaling, media, and user data in transit and at rest.

Next-level Connectivity as Your Companion Device

The latest built-in Bluetooth5.0 and Wi-Fi6.0 (only -W series) provide more device coordination and flexible network connection. Instantly get on your headset by close-to-pair.

Smart UX for Seamless and Efficient Work

Redesigned UI makes easy access to more functionalities, like BLF floating, Accessibility Mode, Dark Theme. Enjoy unified interaction and more user-friendly experience.

Call in a Sustainable Future

Adoption of green packaging and power-saving mode reduce plastic waste, carbon footprint for sustainability.

T77U Advanced Business Phone

Recommended Users： executives, managers

- Linux 6.1 offers a more secure environment and faster response.
- TEE hardware encryption solution, which can provide you with a more secure data storage experience.
- 7" color touch screen with backlit
- Optimal HD voice, Acoustic Shield & AI Noise Cancellation
- Up to 16 VoIP accounts
- Supports Bluetooth and Wi-Fi via optional USB Dongle
- Dual-port Gigabit Ethernet
- 84 DSS keys that can be easily programmed to various features
- Supports up to 3 EXP55, 234 additional buttons with LED system

T74W Professional Business Phone

Recommended Users： occupied professionals

- Linux 6.1 offers a more secure environment and faster response.
- TEE hardware encryption solution, which can provide you with a more secure data storage experience.
- 4.3" color screen with backlit
- Optimal HD voice, Acoustic Shield & Smart Noise Filtering
- Up to 16 VoIP accounts
- Supports built-in Bluetooth 5.0 and Wi-Fi 6
- Dual-port Gigabit Ethernet
- Flexible buttons that can be easily programmed with up to 50 DSS keys
- Supports up to 3 EXP55, 234 additional buttons with LED system

T74U Productive Business Phone

Recommended Users： busy office workers

- Linux 6.1 offers a more secure environment and faster response.
- TEE hardware encryption solution, which can provide you with a more secure data storage experience.
- 4.3" color screen with backlit
- Optimal HD voice, Acoustic Shield & Smart Noise Filtering
- Up to 16 VoIP accounts
- Supports Bluetooth and Wi-Fi via optional USB Dongle
- Dual-port Gigabit Ethernet
- Flexible buttons that can be easily programmed with up to 50 DSS keys
- Supports up to 3 EXP55, 234 additional buttons with LED system

T73W Feature-Rich Business Phone

Recommended Users： workers of co-working space

- Linux 6.1 offers a more secure environment and faster response.
- TEE hardware encryption solution, which can provide you with a more secure data storage experience.
- 2.8'' color LCD with backlit
- Optimal HD voice, Acoustic Shield & Smart Noise Filtering
- Up to 12 VoIP accounts
- Supports built-in Bluetooth 5.0 and Wi-Fi 6
- Dual-port Gigabit Ethernet
- Flexible buttons that can be easily programmed with up to 40 DSS keys
- Supports up to 3 EXP55, 234 additional buttons with LED system

T73U Connective Business Phone

Recommended Users： office workers

- Linux 6.1 offers a more secure environment and faster response.
- TEE hardware encryption solution, which can provide you with a more secure data storage experience.
- 2.8'' color LCD with backlit
- Optimal HD voice, Acoustic Shield & Smart Noise Filtering
- Up to 12 VoIP accounts
- Supports Bluetooth and Wi-Fi via optional USB Dongle
- Dual-port Gigabit Ethernet
- Flexible buttons that can be easily programmed with up to 40 DSS keys
- Supports up to 3 EXP55, 234 additional buttons with LED system

T3 SERIES
CLASSIC DESKTOP IP PHONE

Yealink's T3 series is a classic and cost-effective entry-level business IP phone series for daily desktop voice communications. The T3 series maximizes productivity and enhances collaboration for businesses of various scales.

T34W Scalability Business Phone

Recommended users: office workers

- 2.4'' 320x240-pixel color display with backlit
- Supports built-in Wi-Fi for wireless connection
- 5-way local conference
- Dual-port Gigabit Ethernet
- Adopts Hall switch extending the life of the phone
- Integrated USB 2.0 interface for headset connection

T33G High Performance Business Phone

Recommended users: frontline staff who needs reliable wired telephone

- 2.4" 320 x 240-pixel color display with backlit
- Adjustable multi-angle stand
- 5-way local conference
- Dual-port Gigabit Ethernet with integrated PoE（T33G）
- Adopts Hall switch extending the life of the phone

T31/T31P/T31G/T31W Essential Business Phone

Recommended users: frontline staff who needs reliable wired telephone

- 2.3" 132x64-pixel display with backlit
- Adjustable multi-angle stand
- 5-way local conference
- Built-in Power over Ethernet (PoE)
- Dual-port Gigabit Ethernet (T31G,T31W)
- Dual 10/100 Mbps network ports(T31/T31P)
- Built-in dual band 2.4G/5G Wi-Fi (802.11a/b/g/n/ac)(T31W)

T30/T30P Basic Business Phone

Recommended users: frontline staff who needs reliable wired telephone

- 2.3" 132x64-pixel display with backlit
- Adjustable multi-angle stand
- 5-way local conference
- Dual 10/100 Mbps network ports
- Adopts Hall switch extending the life of the phone

DECT PHONE SERIES

PROFESSIONAL CORDLESS IP PHONE

Enabling telephony communication in mobile working is of great significance in certain scenarios and environments such as warehouses, factory sites, retails, restaurants, SOHOs and SMEs.

Yealink DECT IP Phone Solution is specifically designed to power up on-the-move communication with sophisticated HD voice, robust battery and stable signal process performance.

Ergonomic Design for a Reliable and Portable Experience in Modern Workspaces

Compact, lightweight, and easy to carry, Yealink's DECT solution endpoints feature a metallic appearance, modern business style, classic hard keypad, and intuitive UI.

Superb HD Audio with Codec for Clear and Focused Communication

Based on professional hardware and a sophisticated acoustic algorithm, Yealink's DECT solution delivers superb quality audio with stable and reliable performance under diverse network conditions. Even in complicated environments, the audio processing capacity of Yealink's DECT phone systems can block out noise and keep conversations clear and focused.

Streamlined Provisioning and Management with Ease and Efficiency

Yealink's DECT phone systems support efficient provisioning and effortless mass deployment with Yealink's Redirection and Provisioning Service (RPS) and Boot mechanism, enabling remote deployment, maintenance, and upgrades.

T85W + DD10K DECT Desktop Phone

Recommended for desktop in DECT environment

- 5.5" color adjustable display with backlight
- HD voice with audio codec
- Full-duplex hands-free speakerphone with AEC
- Busy Lamp Field (BLF)
- Support up to 4 DECT cordless handsets

W78H Premium DECT Handset

Recommended for executive suites and SMEs

- New modern commercial design that is more compact and portable than ever
- 2.4'' color screen with intuitive user interface
- HD voice and noise cancellation for crystal-clear audio experience
- Quick charging: 10-minutes charge time for 2-hours of talk time
- Vibration alarm to ensure you will not miss any calls even in noisy environments
- Headset connection via Bluetooth or 3.5 mm jack
- No Perception Upgrade, not affecting any work

W74H Cost-effective DECT Handset

Recommended for offices and hotels

- 1.8'' TFT color screen with intuitive UI
- HD voice with noise cancellation
- Vibration for call reminders even in a noisy environment
- Up to 24 hours talk time (in ideal conditions)
- Up to 320 hours standby time (in ideal conditions)
- Headset connection via built-in Bluetooth 5.1 or 3.5 mm jack
- No Perception Upgrade, not affecting any work

W56H Mid-level DECT Handset

Recommended for supermarkets and SOHO

- 2.4" color screen with intuitive user interface
- Elegant keypad design with illumination and keypad lock
- Full-duplex speakerphone and HD voice
- Up to 30 hours talk time
- Up up to 400 hours standby time
- Headset connection via 3.5 mm jack

W73H Basic DECT Handset

Recommended for warehouses and factories

- 1.8" color screen with intuitive user interface
- HD voice and noise cancellation
- Up to 35 hours talk time (in ideal conditions)
- Up to 400 hours standby time (in ideal conditions)
- Headset connection via 3.5 mm jack
- No Perception Upgrade, not affecting any work

W71H Entry-level DECT Handset

Recommended for warehouses and factories

- 1.8'' black-and-white screen with intuitive user interface
- HD voice and noise cancellation
- Up to 340 hours standby time (in ideal conditions)
- Up to 30 hours talk time (in ideal conditions)
- No Perception Upgrade, not affecting any work

W59R Professional DECT Handset

Recommended for office staff who need to walk around the workplace frequently

- 1.8" color screen with intuitive UI
- IP67 standard
- HD voice with Opus audio codec, LC3 Plus and Noise Cancellation for optimal audio experiences
- Up to 28 hours of talk time (18 hours with Bluetooth headset)
- Up to 360 hours of standby time (200 hours with Bluetooth headset)
- Built-in Bluetooth
- No Perception Upgrade, not affecting any work
- Cushions the occasional fall and can easily withstand falls of up to 3.5 meters
- Alarm functions helping send emergency calls at the instant of occurrence.

Dust Resistant | Shock Resistant | Water Resistant | Scratch resistant | Anti-disinfectant

Push-button Alarm | Running Alarm | Man-down Alarm | No-movement Alarm

W57R Entry-level DECT Handset

Recommended for workers in challenging environments like factories, warehouses, hotels, etc.

- 1.8" color screen with intuitive UI
- IP54 standard
- HD voice with Opus audio codec and Noise Cancellation
- Up to 40 hours of talk time
- Up to 575 hours of standby time
- No Perception Upgrade, not affecting any work
- Cushions the occasional fall and can easily withstand falls of up to 3.5 meters

Dust Resistant | Shock Resistant | Splash Resistant | Push-button Alarm | Scratch resistant | Anti-disinfectant

DECT Single-cell System

Yealink W70B DECT Base Station

Designed for small- to medium-sized business, Yealink W70B is eligible for single-cell IP phone systems with up to 10 DECT endpoints and 6 repeaters for larger signal coverage.

Premium Audio Performance

Equipped with upgraded processing capability and acoustic algorithm, the W70B provides the users with better performance in signal stability and audio quality by supporting Opus codec and noise cancellation technologies.

Productive DECT Ecosystem with All-rounded Endpoints

Yealink's W70B is compatible with Yealink's whole series of DECT endpoints including handsets, conference phones and DD phones, offering multiple choices for building a wireless communication network in various workspaces across small and medium size business.

Easy Deployment and Efficient Management

The W70B supports efficient provisioning and effortless mass deployment with Yealink's Redirection and Provisioning Service (RPS) and Boot mechanism to realize the Zero Touch Provisioning. An upgraded web portal is also utilized for more intuitive and user-friendly experience in managing devices.

up to 10 DECT Handsets	up to 20 Simultaneous Calls	up to 10 SIP Accounts	up to 6 DECT Repeaters

Recommend Solutions:

For business workplaces

- W73P (W73H+W70B)
- W76P (W56H+W70B)
- W78P (W78H+W70B)

For challenging and harsh environments

DECT Multi-cell System

Consisting of the DECT Manager and base stations, Yealink's DECT multi-cell system provides superior mobile communication experience with seamless handover and an industry-leading roaming solution. With wide coverage and stable audio delivery, the multi-cell system is ideal for diverse scenarios including warehouses, factories, hotels, supermarkets and so forth.

Yealink's DECT IP Multi-Cell System provides easier and faster setup for users With helpful tools such as the DECT Deployment Toolkit, IP discovery tool and auto sync level. To improve the efficiency of registering and managing a large number of endpoints, Yealink also offers simple and intuitive portals to save time and labor costs.

Yealink VIM Solution (VIM+W90DM+W90B)

- Supports up to 10 DMs
- Supports up to 600 bases
- Supports up to 2500 DECT endpoints
- Supports up to 2500 accounts
- Supports up to 2500 simultaneous calls

Yealink W90MC Solution (W90DM+W90B)

- Supports up to 60 bases
- Supports up to 250 DECT endpoints
- Supports up to 250 accounts
- Supports up to 250 simultaneous calls

Yealink W80MC Solution (W80DM+W80B)

- Supports up to 30 bases
- Supports up to 100 DECT endpoints
- Supports up to 100 accounts
- Supports up to 100 simultaneous calls

Yealink W75 Mini MC Solution (W75DM+W75B)

- Supports up to 3 bases
- Supports up to 20 DECT endpoints
- Supports up to 20 accounts
- Supports up to 20 simultaneous calls

Wi-Fi PHONE SERIES

PROFESSIONAL WIRELESS IP PHONE

Ideal for SMEs, offices, hotels, retails, warehouses, factories and healthcare.

The Yealink Wi-Fi Phone Series is purpose-built for mobile work environments, offering high mobility, low deployment costs, and simplified management. By leveraging existing corporate Wi-Fi networks, it delivers unified communications without the need for extra cabling or dedicated base stations.

Scalable, Seamless, and Secure Wireless Calling

With Wi-Fi 6 delivering faster speeds and greater capacity, seamless roaming ensures uninterrupted calls, while the WPA3 Enterprise protocol meets the stringent security needs of high-security organizations.

AI-powered HD Audio for Crystal-clear Conversations

Enjoy distraction-free calls with industry-leading Optima HD Voice and AI Noise Cancellation to eliminate background noise. The hearing aid compatible (HAC) handset ensures clearer sound for users with hearing loss.

Long-lasting Battery with Fast Charging via Type-C or Charging Cradle

Enjoy over a week of standby power for uninterrupted use, and recharge easily through the convenient Type-C port or charging cradle.

Over-the-air (OTA) Batch Deployment with Unified Management for Simplified Maintenance

Centralized control via the Yealink Device Management Platform (YDMP) greatly improves operational efficiency. A single Wi-Fi handset can share its network with other Wi-Fi handsets over the air via hotspot, streamlining large-scale deployment.

AX83H Business Wi-Fi Handset

Recommended for offices and hotels

- Dual-Band Wi-Fi 6 with seamless 802.11k/v/r roaming
- 2.4-inch 240 x 320 TFT color screen
- HD voice and AI noise cancellation
- Up to 9-hour talk time (in ideal conditions)
- Up to 200-hour standby time (in ideal conditions)
- 4 SIP accounts,local 5-way conference
- Type-C charging

AX86R Ruggedized Wi-Fi Handset

Recommended for healthcares and factories

- Dual-Band Wi-Fi 6 with seamless 802.11k/v/r roaming
- IP67-rated waterproof and dustproof, drop-proof up to 1.8 meters
- Antibacterial design, chemical cleaning resistant
- Red emergency button and automatic alarm
- 2.4-inch 240 x 320 TFT color screen
- HD voice, AI noise cancellation and acoustic shield
- Up to 13-hour talk time (in ideal conditions)
- Up to 300-hour standby time (in ideal conditions)
- 4 SIP accounts, local 5-way conference
- Type-C charging

CONFERENCE PHONE SERIES

PROFESSIONAL SHARED VOICE DEVICES

Yealink designs audio conferencing solutions for different conference environments, continuously improves its products, is dedicated to providing clear and smooth conference communication experiences for indoor and remote attendees, and helps customers reduce communication costs and increase productivity.

Ingenious Next-Gen Designs

Yealink's new conference phone series overturns traditional designs with an ultra-thin and sleek appearance and black acoustic fabric, ensuring crystal clear sound while blending perfectly into the business occasion of the conference room. This serialized design is also water, oil, and stain resistant, preventing issues caused by 'oops' moment in meetings.

Game-changing Audio Presence

Wrapped under the stunning appearance is a powerful set of technology and professional components that give Yealink conference phones outstanding audio quality. Yealink has developed a series of acoustic technology, including Smart Noise Filtering, Optimal HD audio, and Noise Proof Technology, to provide customers with studio-like audio experiences.

Easy Scalability for More Flexibility

Considering the various usage scenarios of customers in meetings, Yealink maximizes the scalability of conference phones. By simply connecting mobile devices such as smartphones, PSTN devices CPN10, etc., to the conference phone via Bluetooth or USB, attendees can join the meeting and enjoy the quality audio of hybrid UC meetings. Yealink conference phones are also able to connect with wireless expansion microphones (CPW25*pending/CPW65) to deliver optimal microphone placement and wider room coverage in meetings.

CP965 Flagship Conference Phone

Recommended for medium to large meeting rooms

Key Features:

- 5'' capacitive touch screen, premium business styling, Reddot award-winning quality
- Android 9.0 OS for smoother operating experiences
- Built-in 12-microphone array for 360-degree voice pickup and 1 microphone for noise cancellation, providing best-in-class conversation environment
- Supports 2 DECT wireless expansion microphone CPW65 and 4 CP965 cascades, enabling CP965 to be utilized in more conferencing scenarios.

CP935W Wireless Conference Phone

Recommended for small to medium meeting rooms

Key Features:

- 4'' capacitive touch screen, sleek style with intuitive user interface
- Built-in 6-microphone array for voice pickup and noise cancellation, covering a range of 20 feet with 360° Omni-direction for Optimal HD audio
- Built-in rechargeable battery with 75 hours standby time and 15 hours talk time for convenient mobility
- Built-in WIFI and Bluetooth for easy connection with BYOD devices such as smart phones for hybrid UC meetings.

CP935W-Base
DECT Conference Phone

Recommended for small to medium meeting rooms

Key Features:

- 4'' capacitive touch screen, sleek style with intuitive user interface
- Built-in 6-microphone array for voice pickup and noise cancellation, covering a range of 15 feet with 360° Omni-di rection for Optimal HD audio
- Support DECT Mode
- Built-in rechargeable battery with 167 hours standby time and 15 hours talk time in DECT mode

CP925 Basic Conference Phone

Recommended for small to medium meeting rooms

Key Features:

- 4'' capacitive touch screen, sleek style with intuitive user interface
- Built-in 7-microphone array for voice pickup and noise cancellation, covering a range of 20 feet with 360° Omni-direction, adequate to deliver clear and natural voice conference experience.
- Built-in WIFI and Bluetooth for easy connection with BYOD devices such as smart phones and PSTN device CPN10 for hybrid UC meetings.

YEALINK IP PHONE ACCESSORIES

Yealink's IP Phone accessories range from expansion modules to USB dongles and professional headsets. They increase the usability and impact of your existing collaboration network and maximize the compatibility of solutions.

EXP55 LCD Color-screen Expansion Module

- 5.5" 480x960-pixel color screen
- Color icons for rich visual experience
- 26 physical keys on each page with dual-color LED
- 3 control keys with LED for fast switching pages
- Supports up to 3 daisy-chained modules
- Supports Yealink T7&T8 Series only

CPW65 CP Wireless DECT Expansion Mic

- Audio input device for Yealink CP965 conference phone
- Optimal HD voice with 3 built-in microphones
- 10-foot (3-meter) 360° voice pickup
- Up to 20-meter connection distance with the CP965
- 11-day standby time and 13-hour talk time
- 360° non-directional charging on charger cradle

DD10K DECT USB Dongle

- Supports Yealink T8 series.
- Supports up to 4 compatible Yealink handsets
- Plug and Play
- High Transmission Rate

RT30 DECT Repeater

- Supports Yealink W70B DECT base station
- Up to 6 repeaters per base station
- Wall mountable

WF50 Dual Band Wi-Fi USB Dongle

- Compatible with Yealink T73U/T74U/T77U
- Dual-band connectivity
- High transmission rate
- Interference free, reliable connection

EHS40 Headset Adapter

- Compatible with Jabra, Plantronics, Sennheiser
- Control call through wireless headset
- Plug and play
- Easy to use

BT41 Bluetooth USB Dongle

- Compatible with Yealink T73U/T74U/T77U
- Support for up to 10 meters of range
- Wideband audio support
